

Hands that Reach the World

From Idaho to Venezuela

When disaster strikes, access to basic medical care becomes even more critical. We have prepared a 40-foot shipping container filled with more than six tons of medical equipment and supplies—valued at approximately \$500,000—to support healthcare providers and families affected by the devastating earthquakes in Venezuela. In partnership with Global Gateway Network, this life-saving shipment will help deliver essential resources to communities working to rebuild and recover.

You can help make this mission possible. We are raising funds to cover the cost of shipping this container to Venezuela. Every gift, no matter the size, brings us one step closer to delivering hope where it is needed most. Simply scan or click the QR code to make a secure donation and help send critical medical aid to those in need.

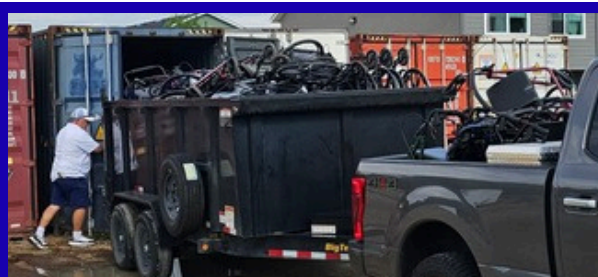

Help Us Send Hope to Venezuela

Rolling Hope to Ukraine

Just last week, we shipped 50 wheelchairs and 25 rollators to Ukraine through our valued partners at Church of the Living God. These mobility aids will provide greater independence and improved quality of life for individuals affected by the ongoing conflict.

Every shipment is made possible through the generosity of our donors, the dedication of our volunteers, and the strength of our partnerships. Together, we are delivering hope and restoring mobility to those who need it most.

June Impact Snapshot
